Shaun's house - see The Monster Book for a note on those tapes which have been re-recorded.

Tapes on tournaments are always a good idea but don't do over well. Some recent games by MJB can be found on the Grob tape. A tape on the World Championship's History would have limited appeal and would be one of the most difficult to compile. Keene's tapes on the '78 K v K clash are still available - 2xC90 - 90 mins - for £ 5.95.

1 c3 is very transpositional and seldom seen although I recall its use in Hodgson v Short, Grieverson, Grant Brit Ch '79. For a good coverage of the Saragossa, see Harding's monograph 'Irregular Openings'.

The identity of " THOR " is, of course, still a closely guarded secret. If you would like to have a few guesses write to :
" I Think It's ---- ----.", % Mr JY Grunties, Butts Cottage, Long Lane, Odiham, Hampshire. We'll print the most ingenious solutions. - JP)

Mr Nick Camp dropped us a line from Rochdale :

I enclose a game of mine, played in November, using your defence 1 ... g5. Normally I use the St George but thought I'd have a change - he was quite old so I thought "I must know more about the position than he does."

The funniest part was that after my first move he laughed into his beer - after my second he collapsed onto the floor. I think this is why he shed material so quickly.

I have an idea : In MJB v Miles, Benedictine '81 (cf RR No 16) after 1 g4 e5 2 h3 d5 3 Bg2 Nc6 4 c4 dc: why not 5 Bc6:+ and now 6 Qa4. This gives him trebled pawns and all I can find for him is 6 ... Qd5. You go 7 Nf3 and follow up with Nc3!

MJB writes : " But 7 ... Qb5 8 Qb5: cb: 9 Nc5: Bb7 7 "

Mr Mike McDowall writes from Croydon:

I return the Classical French (Taulbut). A very good introduction into the principles, if a little light in content. By the way, what type of dog does Shaun have ?

I have had some thoughts on possible futures tapes :

The Queen's Indian, The Pirc (Perhaps your 1 e4 g6 2 Nc3 Bg7 3 a3! line - Basman v Nunn, Basingstoke 1978; see RR No 1), Giuco Piano/2 Knights Systems and how about a full cassette on the Sicilian Counter Attack ?

Some general ideas :

We have RR at one end of the market and Chess & BCM at the other. How about a quarterly/annual tape on the British, Lloyds Bank Masters and Benedictine ? After 'Basman at the British', why not 'Basman at the Benedictine'?

A tape could be produced on the History of the World Championship.

Why not produce some more excellent endgame cassettes ?

That's all for now. I'd like Tarrasch by Plaskett and Thor Speaks (.. who is this man Thor ??).

Patrick Kelly writing in the Monster BOAC (.. good initials !) might be interested to learn that 1 c3 is in MCO 11.

Korn gives : 1 c3 e5 2 d4 ed: 3 cd: d5 4 Nc3 c6 5 Nf3 Bd6 6 Qb3 Qb6 7 Qc2 Ne7 with equality. Is there scope for a future tape here ?

The attached game may be of interest to you. It was played in the

Northumberland League.

We are in Division 3 and were drawn against a first Div

team, with five 1st Team County players. My opponent

had been Northumberland Champion on more than one occasion and this was my first season of OTB chess for four years, and when I was playing my grade was nowhere near that of my opponent here. I did not want to risk a well analysed opening and so, having listened to the Centre Counter Tape a number of times I decided to play it for the first time.
