THE END

JAMES PRATT PRESENTS :

Issue Six of :

Only 60p

A U D I O C H E S S N E W s
(Subtitled 'The Chess Subtitle'.)

I must apologise for this issue being so late, I'm certain you will find plenty to interest you here.

This is, sadly, the last issue of ACN for the foreseeable future, but". the King is Dead : Long Live the King.....". for A/C will return with :

" THE MONSTER BOOK II".

It is now time for you to contribute and in as much detail as you can - not just your games with Audio Openings; also : ideas for future cassettes, letters, news, results, art-work, poems, jokes. The lot.

Be vocal : Audio Chess : the Human Way to study Chess as the idea is sound, throw away all those boring books and join the Masters.

You Under 160 grades still need to study Rabbits Review and why do you keep drawing so many boring games - get 'The Myers Openings Bulletin' before chess gives you up. And don't you look at me in that tone of voice, this is for your own good, so take out subscriptions today or else

Audio Chess News back numbers are available (6 for £3.50) from: Mike Bazz, 7 Billockby Close, Chessington, Surrey.

Contributions to the 'Monster BK II' should be sent to : James Pratt, Butts Cottage, Cemetery Hill, ODIHAM, Basingstoke, Hants (Tel : Odiham (025671) 3603)

We eagerly await your contribution to this section. Meanwhile, here is this issue's helping of:

A FEW QUOTES :

" I joined your library and did not expect it to be so good. By the way, are the booklets which accompany tapes for sale separately ?" - Mr Brian Inkster of Shetland
(Thanks Mr Inkster. Yes, the booklets can be bought on their own.)

" On 'At the British', that's Brighton 1980, the interference was negligible, and I thought this the most enjoyable tape especially your game with Jon Speelman, which was engrossing to analyse." - Mr John Griffin from Dublin 16.

Mr Dave Cooper, who hails from Fleet Estate in Bilton says:

" I hope you all had a nice Christmas. I am returning the Budapest Tape and must say it's your best effort so far. How is Murray Chandler doing with his Morra (1 e4 c5 2 d4!?) Gambit tape??"

(The latest anti-Sicilian tape is on the 3 Bb5+ line by SM Taulbut and Otto Hardy is also doing one on the Benko. Details of these and Chandler's, as and when)

Have you heard : TONY SMILES (THE One and Only...)

Live from the British Chess Championships at Torquay, a scooped interview with Tony Miles, who won this year's event, the strongest ever, with 9/11 (undefeated!). Taped at the Grieson, Grant booze up and very clear and lucid, despite the wine & cheese sandwiches. There are also interludes from Jon Speelman (was his Queen sac v Levitt sound? ...), Jane Garwell (the Lady Champion, who scored a massive 10/11 ...), Robert Bellin (... hear about his approach to the openings...) and Mark Walker (British U-8 Champion and cousin of Basingstoke's legendary Worsfold Brothers....!). Also featured : an interview with Mike himself plus, of course, some games and positions

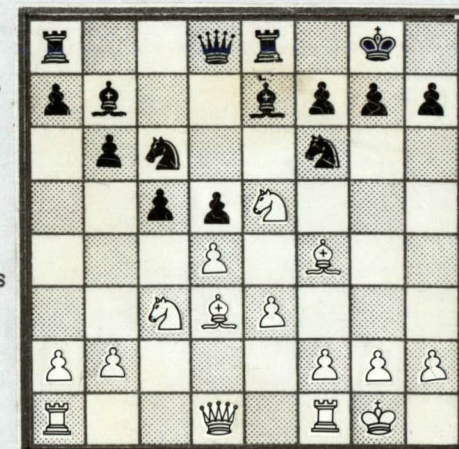

From Stockton-on-Tees, it's theoretical chapter-and-verse :

♔♔♔ **O** PENING **S** UGGESTIONS from T Wall ♔♔♔

On Ray Keene's 'Repertoire for the 1 d4, 2 c4 Player ' (still available for only £6.50 direct from A/C - JP) - I thought the first half was very good, on the 1 d4 d5 lines and used this to effect in the Cleveland Championship:

1 d4 d5 2 c4 e6 3 Nc3 Be7 4 Nf3 Nf6 5 Bf4 00 6 e3 b6 7 cd: ed: 8 Bd3 Bb7 9 00 c5 10 Ne5 Nc6 11 Qf3 and now black diverged from

Keene's tape with 11 ... Re8 (-->) which did not help his cause greatly. However, to move on, I did think his coverage of the Nimzo-Indian and KID scanty and hardly what I was looking for. It hardly fitted in with Keene's modern approach against such modern defences as the Grunfeld and Semi-Slav.

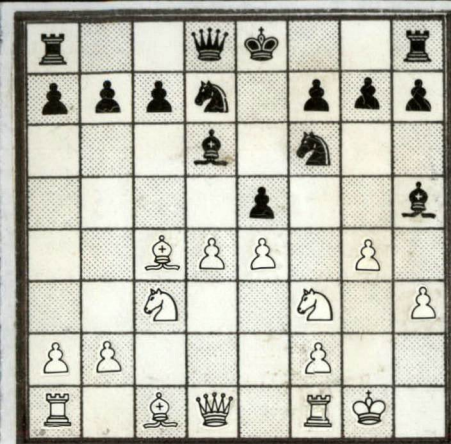

I am going to play the following :

1 d4 Nf6 2 c4 e6 3 Nf3 and if 3 .. b6 (the Queen's Indian), the highly fashionable 4 a3.

After 1 d4 Nf6 2 c4 g6 3 Nc3 Bg7 4 e4 d6 5 f4 and follow AR Cullinane's article in 'Chess', Vol 46 P 82 regarding 13 d6!

Finally, there was an interesting article in 'Shakmatny', No 8 1981, P 285 on the QGA :

1 d4 d5 2 c4 dc: 3 Nf3 Nf6 4 e3 Bg4 5 Bc4: e6 6 h3 Bh5 7 Nc3 Nbd7 8 00 Bd6 9 e4 e5 10 g4! (-->)

and now it gives the following:

(i) 10 ... Bg6 11 de: Ne5:

12 Ne5: Be5: 13 f4! Qd4+

14 Qd4: Bd4:+ 15 Kh2 Bc3:

16 bc: Be4: 17 g5 Nd7 18

Re1 f5 19 gf: Nf6: 20 Bd3

00 21 Be4:

(ii) 10 ... Bg6 11 de: Be5: 12

Ne5: Ne5: 13 Be2 Ned7 14

f4! Be4: 15 g5 Bc6 16 gf: Qf6: 17 Bf3 000

18 Bc6: Qc6: 19 Qf3

(iii) 10 ... ed: 11 Nd4: Ng4: 12 Nf5! (Not 12 hg:

Qh4 13 f4 Qg3+ etc) 12 ... Bh2+ (Now if instead 12 ...

Ne3 13 Ng7:+ Ke7 (13 ... Kf8 14 fe:!) 14 Qh5: Nc4: 15

Bg5+ f6 16 Nd5+ Kf8 17 Ne6+). So, after 12 ... Bh2+

13 Kh1! Nf2:+ 14 Rf2: Bd1: 15 Ng7:+ Ke7 16

Rf7:+ Kd6 17 Be3 and white is better or - as they say.

With this I think white has a good way of combatting the 4 ...

Bg4 lines and will therefore get what he wants - a normal 4 ...

e6 IQP game.

On the whole I think Keene has done a splendid job, but would

have preferred English descriptive notation.

PLAN AHEAD : GET your CHRISTMAS PRESENTS NOW.....!

Why not treat yourself even, to a subscription to "The Myers

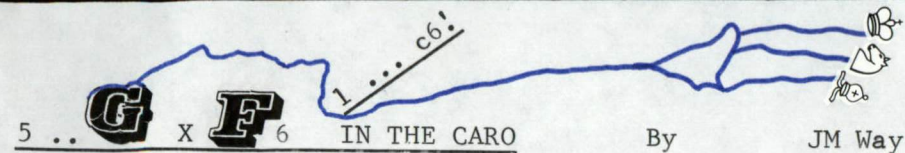

Openings Bulletin". Recent issues cover 1 c4 g5!?, 1 Nc3 a6,

1 e4 c6 2 d4 d5 3 Nc3 dc: and now 4 Bc4 and many more plus some

provocative book reviews. Details from: Dept. Kron, 7 Billockby

Close, Chessington, Surrey. Playing these lines will stop all

those boring games you hate.

And Mr Dave Carless writes from High Wycombe :

was the following lightning when I was out of contention:

1 b3 a5 (I am black) 2 Bb2 a4 3 e3 e6 4 Bb5 Qg5 5 Bf1 Nc6 6 Nf3

Sheffield postalite, Mr Andrew Fedorks
dropped us the following line:

" Please supply 'The Macho Grob'

Here is one of my better Grobs, from the BCCA K/O 548, Rd1 :

1 g4 (Black is DJ Ball) d5 2 Bb2 g6 3 h3 Bg7 4 d4 b6 (Black plays
too passively with his centre pawns, allowing white to develop

22 Bc6: Ra7 23 Qd3 b5? 24 Qg6: Bf6 25 gf: 1-0.

Mr Mark Johnstone, twice Junior British Correspondence Champion, wrote in controversial style from his home in Yateley :

' To record a meaningful cassette on the KF must be a Herculean task as the systems are so amporous and are too prone to transpositional possibilities to allow an easy classification.

Keene, in his 'The King's Fianchetto Tape' compounds this difficulty by attempting to deal with both the white and black KF on a single Cx60 tape. The result is a shallow analysis of the variations and principles.'

' Side 1 covers the King's Indian Attack complex and discusses briefly the basic themes stemming from the set-up. However, white plans vary considerably depending on the black choice of defence, and thus it is all very well to stress Qh5/g4 idea in KIA games but if black fianchettoes his Queen's bishop and plays 000 there is little point to this move. Consequently, we are presented with only token coverage of the KIA. This includes analysis of Bronstein v Uhlmann (Moscow '71) and of Fischer v Ivkov (Santa Monica '66) which although certainly highlights white's attacking chances, does not mention recent improvements for black in these lines. There can be nothing wrong in dealing thematically with such a hybrid system as the Kf but there is no allusion to the Reti or Benko or Larsen Openings - just a rather artificial discussion of the general principles of the KIA.'

' The later part of Side 2 deals with the black Kf and covers the Pirc/modern with astounding speed; the cassette would be gold-dust if such sensitive systems could be adequately summarised so efficiently : but they can not.'

One victim of such brevity was the variation : 1 d4 g6 2 c4 Bg7 3 e4 d6 4 Nc3 Nd7 which was cited without reference to the very grave theoretical problems that face this line. The selected game, Schaufelberger v Ljubojevich (Skopje '72), contained too many opening errors to warrant worthwhile examination from the opening angle. Perhaps the most interesting remark on the tape was the cautionary note : 'don't allow white pawn advances to gum up the works.' Keene concludes by recommending two of his own books.'

' By way of a companion to the above letter I have annotated one of my games from this year's Thanet Open. It illustrates that white should not fear an opposing pawnroller as it can easily become a target for attack : one of the major thematic ideas underlying hypermodern openings.

W : MA Johnstone (181); B : GM Brown (175)

1 g3 e5 2 Bg2 d6 (The move order suggests that black plans ... f5 and so white should not play passively.) 3 e4 c6 (Dogmatically preparing a central pawnroller; if white continues quietly with 4 Nf3 f5 5 d3 Nf6 black will have a satisfactory game; thus white must be active.) 4 d4 f5?! 5 de: de: 6 Qd8:+ Kd8: 7 Nf3 Bd6 8 Nbd2 (-->)

produce a weak square immediately in front of them, thus white plans to blockade on the e4 square, deprive the 'e' pawn of its dynamism, and force the black pieces into passive defence.)

11 ... Nd7 12 O-O Ngf6 (Allowing 13 Nf6: Nf6: 14 Bc6: Rc8 15 Bb5 Rc2 when black's active pieces give him the initiative and psychologically a far easier game; hence taking the offered pawn would not be too clever as maintaining firm control and denying black counterplay must be best.)

13 a4! (Threatening to open up the 'a' file, activate the Q-rook, and discovering the K-bishop on the h1-a8 diagonal; to avoid this black has to cede control over the c4 square and so must deflect the knight on d2 before attempting to close up the Q-side.)

3 ... d6 (I don't think 4 e5? is strong, and would play 4 ... Ng4. Or if 4 Nc3 or 4 d3 then ... d5 is OK.)
4 c3(?) (In conjunction with 5 d4 this is a dubious pawn offer.)
4 ... Nf6 5 d4(?) cd: 6 cd: Ne4: 7 d5 Qa5+ (this Queen check is forced to avoid dropping one of the knights.)
8 Nc3 Nc3: 9 bc: Ne5 (It seems to me that 9 ... Nd8 provides more security. After 10 00 e5 11 de: fe: black remains a pawn up without problems.) 10 Ne5: Qc3:+ (Undiluted greed! 10 ... de 11 Qb3 Bd7 12 00 b6 was more prudent.) 11 Bd2 Qe5: 12 00 Qd5: (This opens lines for white's attack but precludes 13 Bb5+)
13 Rb1 (-->)

(13 Bf3 looks stronger. After 13 ... Qd4 (Not 13 ... Qd3 because 14 Bb7:!
 Bb7: 15 Qa4+ Kd8 16 Ba5+) 14 Rb1 white has a decisive attack; eg: (A) 14 ... Rb8 15 Bc6+ Bd7 16 Rb4!; (B) 14 ... e6 15 Rb4 Qf6 16 Bb7: Bb7: 17 Qa4+ (C) 14 ... e5 15 Rb4 Qc5 16 Qe2.)

 etc) 14 Bf3 Qa2: (Now we can see the result of 13 Rb1. Surely black's Queen is in a safe and active position now?)
15 Bb7: Bb7: 16 Rb7: g6? (Wasting a precious tempo. The simple 16

23 Nd5 cd: 24 Rf7+ Kc6 25 Rcl+ 1:0

OPENING IDEAS by Gerard Welling

I planned to play the 3 Qe2 line (cf ACN Nos 2 & 3) in the KGA but :

1 e4 e5 2 f4 c6?! 3 Nf3?! (d4) 3 ... d5 4 ed:
4 ... e4 5 Ne5 Nf6 (5 ... cd: 6 Qh5 g6?? and now 7 Ng6: a typical blitz trick!) 6 dc: Nc6: 7 Bc4
 7 ... Ne5: 8 fe: Bg4? 9 ef: 1-0 . Funny.
 (If you can't spot why black resigned you can never have seen 'The Ladybird Book of Chess' by Jean Pickles)
 And now, a Basman Sicilian (4 ... Bc5!) v W Smits - I was black, played in the Eindhoven CC Ch Final (18 player Swiss)

agree with that, Mike, old bean. The Polish is a QP opening :
as is the English Defence; St Geo's is a King's pawn member of
the family, where white plays e4 either on his first move or
early on. I call this game a Polish because of white's fifth
move. What do readers think ??)
